

# The Alzheimer's Support Network

*Invites you to prepare for*

## Caregiver Emergencies

*Emergencies happen! When you are caring for someone who needs help and is not safe and/or able to do activities of daily living without someone with him/her most of the time, an emergency happens when you become ill, injured or can not be there suddenly. You may need help yourself. Unfortunately, we can not avoid these crisis situations. But we can prepare for them. It is never too early!*

*Your Alzheimer's Support Network has gathered wonderful resources to help you think through and prepare for that dreaded emergency that likely will come to even the healthiest, most careful caregiver. We have developed a "2-2-2 Plan" that will assist others to care for your loved one should something happen to you.*

*Come to this meeting in person or on Zoom and we will walk you through how to create a 2-2-2 Plan as well as other materials that have helped many who have done this work ahead of time.*
