In person at 1421 Pine Ridge Road, Suite 100

Or join from the convenience of your home.

Connect on Zoom: <https://zoom.us/j/2392628388>

Dr. Salloway is an internationally recognized leader in clinical trials for the prevention and treatment of Alzheimer's disease. He received his MD from Stanford Medical School and completed residencies in neurology and psychiatry at Yale University. He is the founding Director of the Memory and Aging Program at Butler Hospital and Professor of Neurology and Psychiatry at the Department of Psychiatry and Human Behavior, Warren Alpert Medical School of Brown University. He has conducted more than 125 clinical trials that have led to new blood tests and PET scans and new disease modifying treatments for Alzheimer's disease. He also serves as the Principal Investigator for the NE/RI site for the successful US POINTER trial testing lifestyle interventions to promote brain health. He is an expert on the clinical use of the new amyloid-lowering antibodies. He has published more than 500 scientific papers and abstracts and 3 books and he has been the lead author on landmark publications in the New England Journal of Medicine, Nature, Lancet and JAMA that have helped shape the field of Alzheimer's research. Dr. Salloway was inducted into the Rhode Island Hall of Fame and was named Rhode Island Man of the Year in 2019. In 2023, he received the Leon Thal Prize for Excellence in Alzheimer's Research from the Cleveland Clinic.

Everyone is welcome!
