

# PORTRAITS OF DEMENTIA

October 22 – November 30  
Collier Museum at Government Center

## Educational Programs in Partnership with the Support Network

Through the photographs and stories in this exhibit, photographer Joe Wallace shows not only the fear, loss and despair, but also the love, connection, dignity, and powerful humanity that always remain — in the subjects, in the care-partners, and in the families and communities.

**Portraits of Dementia** destigmatizes those living with dementia through moving portraits and stories of lives well lived.

**Portraits of Dementia** is a Program of ExhibitsUSA, a national division of Mid-America Arts Alliance and the National Endowment for the Arts

The **Alzheimer's Support Network** is partnering with the **Collier County Museums** to present three educational programs in connection with this unique exhibit. Two are open to the public.

**The third is designed especially for our families.**

### **1. Memory Care Resource Fair, Saturday, November 9, 11:00-2:00**

In tandem with the Collier County Museum's special exhibit, *Portraits of Dementia*, the Museum has invited the Alzheimer's Support Network and other resources for care, respite, and support to gather for a one-day, one-stop shop for information about memory loss. *Join us* to discover all the ways our community can come together to make the lives of those with dementia and their care partners' jobs easier and more meaningful.

### **2. What to Know about Dementia Today, Tuesday, November 12, 2:00-3:00**

In conjunction with the Collier County Museum's temporary exhibit, *Portraits of Dementia*, the Alzheimer's Support Network will present a brief slide show providing insight into dementia and information about the services available free of charge at the Alzheimer's Support Network.

### **3. Special Tour and Activity for Network Families, Monday, November 25, 10:00-11:30**

We will gather for a **special guided tour of the Exhibit** followed by an enrichment activity based on what we have experienced.
